

Albany State University

Albany state is located in albania georgia. If you want to be on campus in small city, this would be a great fit for

a you.

It has an enrollment number of 6,371 people. It's not too small or big so if big colleges are not what you're looking for this is your place!

Some majors here are accounting, marketing, psychology, early childhood and education, and biology. They have plenty more but these are majors that most people enroll in. Albany had plenty of options for you to choose from.

I couldn't find much "special" programs they have. But I did notice ROTC, concert band and dance.

Five presidents served during this period, Dr. Aaron Brown (1943-1954); Dr. William H. Dennis

(1954-1965); Dr. Thomas Miller Jenkins (1965-1969); Dr. Charles L. Hayes (1969-1980); and Dr. Billy C. Black (1980-1996). Dr. Portia Holmes Shields became the first female president in 1996, and she was followed by the university's eighth and current president, Dr. Everette J. Freeman, on September 7, 2005.
